

## New DJ!

Anatolij joined Platinum DJs in November 2014 and has since enjoyed working at Club Ten, for public and private clients such as Grange City Hotel, Grange St. Paul's, DT Events, LGBT Network Winter Comms, Charles River Development and Ex Events.

DJ Anatolij's interest in music began in his early years while growing up in the Ukraine. His main inspirations have been ATB and DJ Tiesto. As time passed by, his passion for music evolved and he became deeply inspired by House Music, including Electro House, Techno House and Deep House. To start with, listening to and working with music was purely a hobby.

However, by 2006, with the encouragement of DJ Anatolij's parents and an increasing interest in the music business, music was no longer a sideline, it became his main focus.

The desire to succeed as a DJ led him to move to the UK where he attended and completed the professional DJ course at Subbass DJ Academy in London. This allowed him to continue with his passion for music and learn about the technicalities of the business.

DJ Anatolij's music is a way of escaping from reality. When performing he wants to amaze and shock his audience with something cool and unexpected.
