About Us

MG Plastering offers plastering services to clients throughout the United Kingdom, run and managed by Michael Gwynn since the company began in 2007. Michael was only 18 when MG Plastering was formed. Despite his young age Michael has built up a good client base all across the Yorkshire region which in recent months has seen him travelling across the UK working for clients he has been recommended to. Michael along with workmates are fully qualified in their field of work, all qualified to City and Guilds NVQ Levels 2 or higher and possess all Health and Safety certificates required.

MG Plast is well known for going the extra mile for clients, this provides a better standard of work and we feel that our work is of top, top standards for all work we complete.

MG Plastering has also recently began taking on all aspects of building work after teaming up with a local well respected company, so if you require extra work looked into please enquire or read more about what we can offer on the next page.
