

'Simplicity25' Fabric LED Light Boxes

Perfect illumination for printed fabrics with silicone sewn edges

Mounting with screws

Mounting with Z-clips

Mounting with clips

The 'Simplicity25' LED box is a 25mm deep front loading frame, perfect for quick and simple fabric changes. Brilliant illumination is generated by the LED light board in 12v or 24v DC, the high brightness LED's edge light the optically clear, CNC engraved Acrylic with an individually graduated grid. This produces corner to corner shadow free illumination across the face, whatever the size.

The 'Simplicity25' is available in A4, A3, A2, A1 and A0 sizes in Silver anodised finish as standard, with White or Black to order, and can be manufactured in any size up to 3000 x 1500mm. Fabrics can be changed without any tools or special skill.
