To Whom It May Concern

Re: Taurus Utility Consultants

Clearview Home Improvements Ltd has used the services of Taurus since we formed the company in January 2008. They in fact came to us by way of recommendation.

The service we have received has been second to none and they have negotiated and secured on our behalf excellent rates from Gas and Electric supply companies for all our branches in the Northwest of England.

The information that has been provided to us in order that we make the best decision and select the best provider possible has always been comprehensive, understandable and extremely concise and delivered within extremely efficient timescales.

The savings to our company have been substantial both in monetary terms and management time.

We look forward to a continued professional and successful relationship with Steve Dobson of Taurus Utility Consultants and would have no hesitation at all in recommending their services to any business out there.

Chris Mitchell
