

Music lessons are also available for Guitar, 5 String Banjo and Mandolin for students of all ages.

Lessons are designed for the level of the student's skills and interests and incorporate music theory where appropriate. Correct technique and exercises are developed to enhance the student's dexterity.

Lessons are developed from personal experience rather than from text books, and are usually given on a one-to-one basis, in person or distance via Skype. Group tuition up to a maximum of six people can be arranged.

Each lesson is designed to enable the student to gain confidence in applying the learning to live situations to enable them to confidently play with others in a band or to jam along for fun. A good understanding of how to use effects, microphones and amplifiers will be covered if required.

Lessons cost £20 an hour, block bookings are preferred as this enables preparation for progressive lesson planning and aids the student by ensuring that they commit to structured regular lessons. As an incentive we charge £80 only for an advanced block booking of five one hour lessons, paid in advance.

repairs and setup**

About us

As custom musical instrument makers we are experienced at setting up, repairing and restoring a wide variety of stringed musical instruments.

We are a small family business

Our goal is to put well set up instruments into the hands of committed players. Whether that be a bespoke hand-made instrument or a newly purchased inexpensive instrument. Players of all levels need a well set up instrument to enable the playing experience to be as easy, and as enjoyable as possible.

This is what we aim to achieve.

No Job is too large or too small

We offer a range of services:

Custom design and making, repairing and setting up a variety of musical instruments which puts us in a particularly good position to undertake all forms of instrument repair and restoration.

- Repairs to damaged instruments
- Instrument Setup
- Instrument re-binding
- Varnish repair and re-finish
- Replacing damaged or lost inlays
- Re-dressing or replacing worn frets

We only select the finest materials and accessories.

We do not outsource. All work is carried out on our premises from wood carving and inlay to wiring the electronics.
