

Deep wet cleaning with all the benefits you would expect from a dry cleaning system

The Texatherm Cleaning System is a patented process combining a unique chemical technology with heat, agitation and reaction between two solutions. The process produces a capillary action which safely deep wet cleans carpets but also delivers all the benefits normally associated with dry cleaning systems.

Dry in only 30 minutes

Cleans, disinfects and applies anti-static coating

Safe for use on wool carpets

Guaranteed not to stretch, shrink or split seams

Low moisture and noise levels

Up to 60% reduction in cleaning time

Leaves no resoling sticky residues

Environmentally friendly

pH neutral carpet on completion
