BI FOLD MOVABLE WALLS

Multi fold sliding systems are a quality range of custom built hinged panel walls.

Most systems are fully floor supported through a bottom roller track system, the system can either park to one side or bi park to both sides.

Sound reduction, up to 44db.

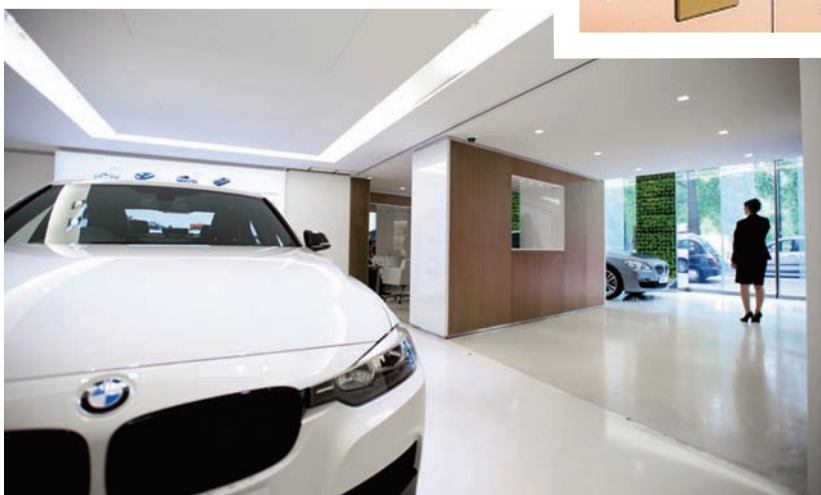

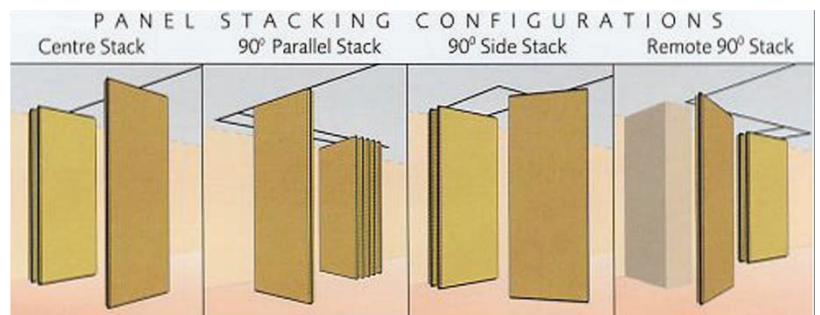

A sliding wall is an effective, affordable and simple way of adding versatility, privacy and functionality to any working environment and here at AMW Solutions we can offer the perfect solution whatever your sliding wall needs, we can provide you with a style which perfectly suits your individual requirements.

SINGLE PANEL WALLS

Single panel walls are a high specification top hung, fully operable individual panel system, offering excellent levels of sound reduction.

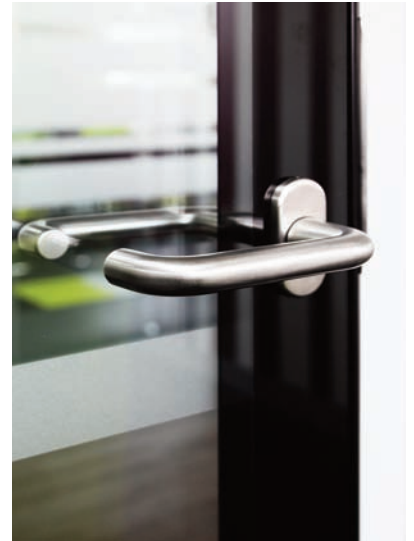

Each panel incorporates retractable seals and efficiently operated by a simple to use removable handle. Telescopic end panel enables the wall to be locked off to complete the acoustic seal.

- Easy one person operation
- Upto 57db sound reduction
- Top track fitting with unbroken floor surface
- Pass doors and vision panels available
- Stacking options for maximum space utilisation

AMW Solutions also supply and install glass wall partitions with a slim line appearance, frameless panels and sleek metallic hardware.

Each type of glass partition system can be used to produce luxurious designs for interior office and commercial spaces.

Not only driven by style our extensive range can be used to create sophisticated, modern and functional office interiors.

We provide a fast no obligation, free site survey and a nationwide supply and installation service.

Our products are specifically designed to suit any requirements, whether you are looking for a low cost solution or a lavish high end specification.

Driving this evolution are designers, who are specifying the extensive use of glass walls to create a fresh modern feel that allows natural light to flood through the work space cultivating a bright, spacious and inspiring atmosphere.

Each glass screen can also be enhanced with a stunning range of frosted or printed manifestation.

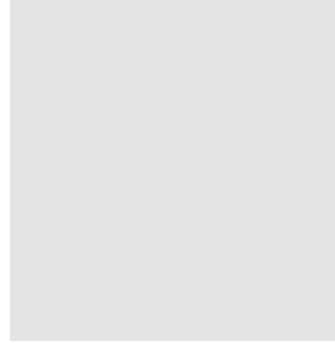

With the minimalism of our slim line head and wall channels, we ensure that the glass elements are maximized thus creating the sensation of truly frameless glass screens.

Repairs, Servicing and Maintenance

AMW Solutions exclusive network of factory trained field service technicians can repair any operable partition or moveable wall system, regardless of the manufacturer.

In addition to repairing wall partitions, we at AMW Solutions can also provide maintenance and service contracts to suit all your needs.

AMW Solutions recommends that you perform regularly scheduled maintenance on your operable partition systems to keep them in good working order and to repair any possible problems you may be unaware of. Regular and thorough maintenance ensures your operable partition will provide excellent service year after year!

Regular Service & Excellent Aftercare

At AMW Solutions we offer an excellent aftercare service to maximise the effectiveness and durability of our products. A regular service helps to ensure that the track remains free of any dirt and debris which can collect in the tracks.

All Moveable parts and locking nuts are checked to ensure safety, panels realigned and acoustic performance maintained.

Panels are easily changed for repair or cosmetic update including an extensive range of colours and wood effects to suit your every need!

Does your Partition Need a Service? Check these points!

- Loose Jamb Posts
- Doors not gliding effortlessly
- Top & bottom seals are both operational
- Panels need re-levelling
- Doors not locking or closing properly
- Sticky hinges & excessive wear on tracks
- Noticeable increase in sound between rooms
- Noticeable increase in sound when opening and closing partitions

Please contact us with any queries you may have or if you would like to receive information on our moveable wall products, please contact us via our website.

"We are Green! All of our waste is recycled responsibly & our vehicles are Eco-friendly!"

SERVICE AND MAINTENANCE

AMW Solutions offer an excellent aftercare service to maximise the effectiveness and durability of its products. A regular service helps to ensure that the tracks remain free of any dirt and debris which can collect in the tracks.

All moveable parts and locking nuts are checked to ensure safety.

Panels realigned.

Acoustic performance maintained.

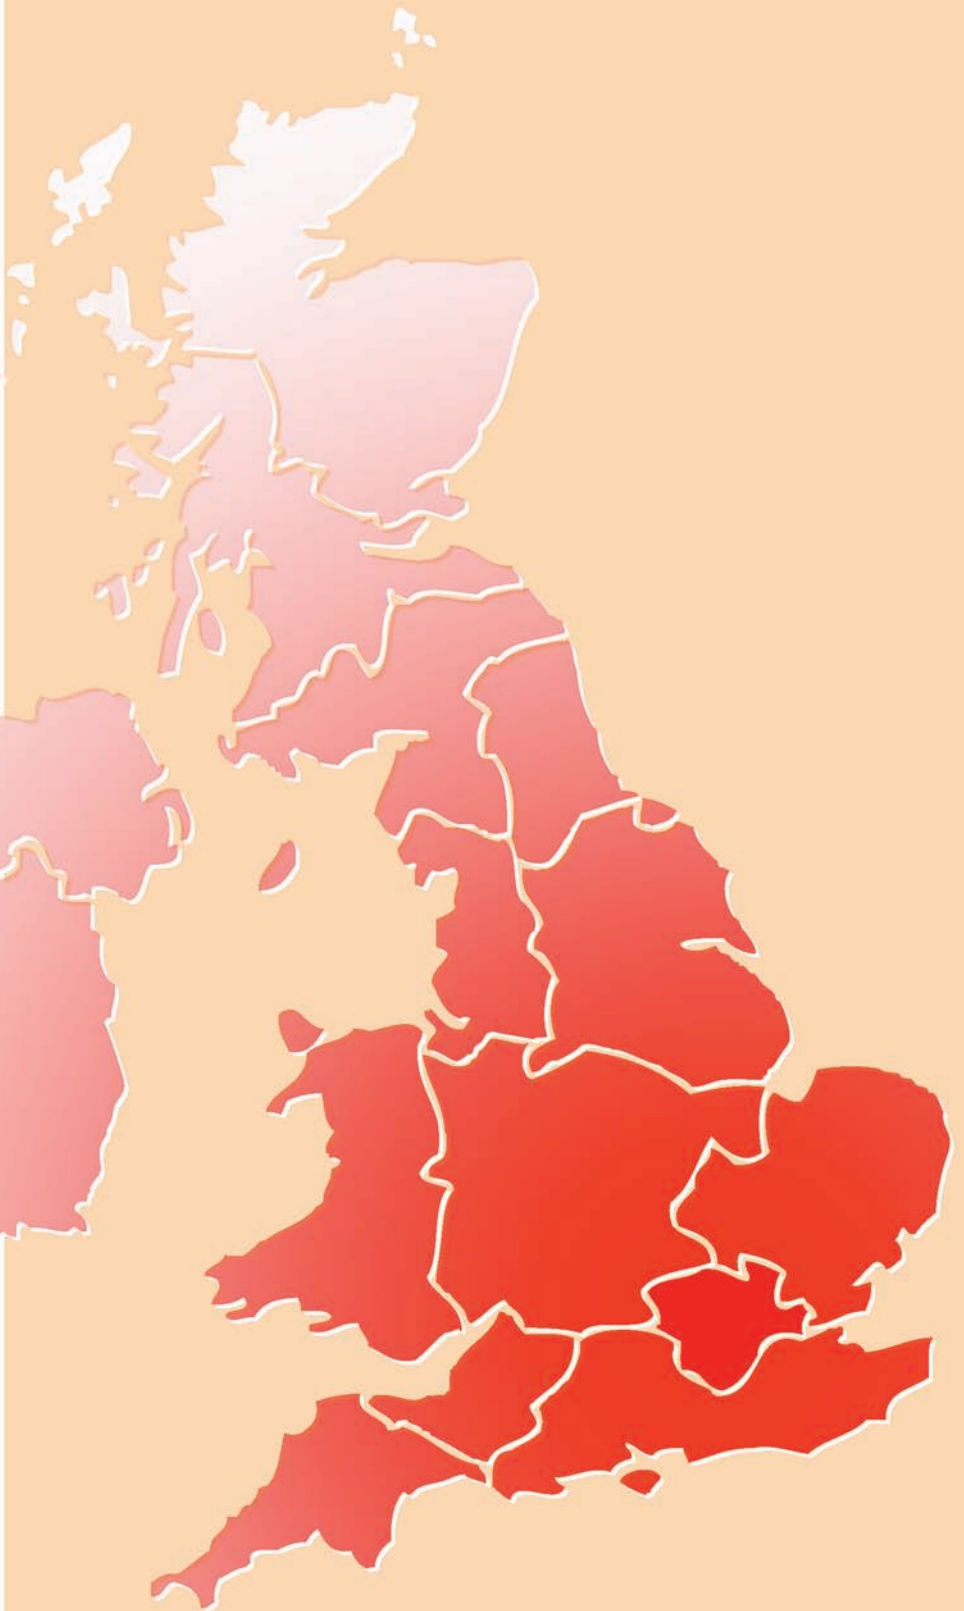

Important note Movable wall systems must be serviced annually and records kept in order to conform with "The health and safety at work act 1974" and "Management at Work Regulations 1999"

Panels are easily changed, i.e. damaged or just a colour change.

We have an extensive range of colours and wood effects to suit your every need.

Our vans carry most spares for most walls, therefore saving costs of having to book another visit

AMW Solutions service and repair all types of acoustic walls, and offer a very cost effective maintenance contract.
